

Men's Ministry

It is widely understood that in most homes, women lead the family's faith experience. Men often recede into the background when faith, prayer, or relationships are discussed.

It has also been shown that homes and communities where men take a strong leadership position in defining the family's beliefs about God as well as the expression and practice of that belief, (members) are more likely to hold firm to those beliefs and continue to practice them throughout their lives. This means that children whose fathers are active in their Catholic faith development are more likely to remain Catholic and actively practice the faith. This also means that parish communities with an active faith-filled group of men will be better able to live the Gospel and reflect God's graces in the home and community at large.

Transfiguration's men's ministries have been effective over the years in providing for many needs our men have as part of an active faith community.

In light of our call to make disciples of all nations, reaching out to men who are not currently enjoying the many benefits of active participation in our community is a primary responsibility of our parish – we need to start at home!

There are many who haven't experienced the love, encouragement, and support this parish community offers. We want to grow the number of men who respond to the good news of Jesus Christ by providing an environment to "meet them where they are" and then support them in building relationships with other men on the same journey, living our faith in the Catholic tradition.
